

**Hengye Inc.** delivers cutting-edge solutions for the ethanol industry with *superior products, expert technical support, and unmatched quality*. Our extensive range of **molecular sieves, activated alumina, and silica gel**—combined with our *customer-first* approach—makes us the trusted partner for ethanol producers worldwide.

We back our advanced products with exceptional service and unwavering quality to help you meet the industry's toughest demands and maximize efficiency.

## Hengye Featured Product

### 3A Molecular Sieves EthaDry® / HYD03C

**E***thaDry® is a high-performance molecular sieve engineered for dynamic VPSA & TSA ethanol dehydration.*

- ✓ Superior mass transfer rates → *Longer cycles and deeper sieve bed utilization*
- ✓ Reduced LUB → *Higher bed capacity*
- ✓ Exceptional physical strength → *Longer lifespan with reduced crush and attrition*
- ✓ Dust-resistant → *Cleaner operation*
- ✓ Higher working capacity → *Maximized productivity*
- ✓ Uniform particle distribution → *Precise fluid dynamics and system control*

## Technical Service

At **Hengye Inc.**, we provide *comprehensive, responsive technical support*. We actively use client feedback to drive continuous improvement. Our goal: *exceed expectations, not just meet them*.

### Our services include:

- **Consultation & Customization** — Tailored solutions for your specific challenges
- **Installation Support** — Seamless setup and integration
- **Maintenance** — Regular check-ups for peak performance
- **Training** — Empowering your team to get the most from our products

## Quality Assurance

*Quality is our foundation.* We hold our products and services to the industry's highest standards.

### Quality Control Measures

- Rigorous raw material testing
- Strict manufacturing protocols
- Regular product evaluations
- Continuous improvement

### Certifications

- **ISO 9001:2015** — Quality Management
- **ISO 14001:2015** — Environmental Management
- **ISO 50001:2015** — Energy Management
- **REACH Certified** — EU Chemical Safety
- **Full compliance with industry regulations**
